

Our Vision for the Future PULSECORE 2030

Our Vision

At Pulsecore Solutions, our vision is a New England community where every member of the public has access to high-quality, evidence-based emergency care training. We believe that timely intervention saves lives and that education is the most powerful tool to improve survival, reduce preventable disability, and strengthen public health resilience.

Looking Ahead

We are committed to expanding access to emergency preparedness and life-saving education across the region by bringing high-quality training directly to workplaces, schools, community organizations, and underserved populations. Anchored by our dedicated training facility in Rhode Island, we combine on-site instruction with training center-based education to ensure consistent, accessible, and effective education.

Our Commitments

Improve access to emergency care training throughout the region

Reduce morbidity and mortality by improving early intervention

Empower everyday people to act confidently in emergencies

Equip healthcare providers with data-driven, community-focused training
